Wastewater Lift Station # 12

Soffit and wet well walls, cement/coating repair is completed. Southwest Environmental from Phoenix Az did the work. The Odor control system has been replaced with the Titus Twister Ozone Odor control system.

Wastewater Lift Station 40th St

The Odor control system has been replaced with the Titus Twister Ozone Odor control system. A new Ozone Diffuser has been installed at the bottom of the Wet Well. All the Alarms are operational, and the Floats have been replaced with a new beacon installed at the control panel.

Membrane Bioreactor Wastewater Upgrades

MBRs were added at our Seasons, Section 14, and Del Oro Wastewater Treatment Plants

Kamstrup AMR Smart Meter Installations

Kamstrup remote-read smart meters are being installed system-wide. Leak detection and reliable usage readings will be delivered by these ultra-sonic technology meters.
